STYLE SECRETS
Follow these simple steps for a glam look

GLITZ AND GLAM
Add plenty of bling with sparkly chandeliers, fabulous mirrors or sequin cushions. Glossy fragments will reflect extra light around the room.

WHITE WASH
Generate flow throughout the house by painting your walls and units white. Accessories in subtle shades of grey and purple, along with contemporary chrome fittings, add opulence.

SO SERENE
A peppering of white flowers and candles makes for a sophisticated look, suggesting a harmonious feel that echoes from room to room.

SOFTLY DOES IT
To ensure a contemporary scheme of white and chrome doesn't appear utilitarian, introduce warmth with tactile picks such as faux fur, velvet and textured damask wallpaper.
